Work Experience

Postdoctoral Researcher University of Bern

2021 - Present

- Conducting research on CO₂ fertilization and its impacts on ecosystems.
- Managing datasets and performing statistical analysis with R.

Research Assistant

ETH Zurich

2016 - 2017

- Analyzed the ecological impacts of climate change on plant communities.
-

Education

PhD in Ecology

University of Bern

2017 - 2021

MSc in Natural Sciences

ETH Zurich

2015 - 2017

Skills

- Data Analysis: R, Python, MATLAB
 - Research: Data management, statistical modeling, fieldwork
 - Languages: English (Fluent), Spanish (Native), German (Beginner)
-

Publications

- Marqués, L. et al. (2024). “The role of CO₂ fertilization on global carbon sinks.” Nature Climate Change.
